Car Storage <input checked="" type="checkbox"/> None Garage # of cars ( 4 Tot.) Attach. _____ Detach. _____ Blt-In _____ Carport _____ Driveway 4 Surface gravel												
Finished area above grade contains: 7 Rooms 4 Bedrooms 2.0 Bath(s) 2,897 Square Feet of Gross Living Area Above Grade												
Additional features: subject has front patio and view of the wetlands in front of home.												
Describe the condition of the property (including physical, functional and external obsolescence): subject would be described in avg-good condition overall in comparison to other homes in the market area. the part of the exterior which is exposed is in avg-gd condition. the exposed siding & metal roof appear to be in avg-good condition with adequate remaining economic life to allow for the cost of replacement at a future date. subject furnace and central air also appear to have adequate remaining economic life as well. the floor coverings of the home show only typical wear & tear for a home of this age. the main unknown factor about the home is the appeal of earth bermed homes in the market area.

Summary of Sales Comparison Approach the appraiser searched the nearby competing mkt area for home sales with similar property characteristics to the subject with regard to being earth sheltered & having large sf and acreage. sales similar to subject were very limited and only 1 similar earth sheltered (sale 1) was found in last year. this sale was adjusted for est contributory value of the entire site and not necessarily a per acre basis due to differences in land values. the appraiser also included a concrete block home (sale 2) which was on similar acreage which was also adjusted for the est contributory value of entire site and not per acre basis. sale 3 was a frame home which offered similar amenities to the subject but required adjustments for frame construction & also mkt adjustment for est contributory value of the entire site and not a per acre basis. no sales were found which were equal or larger in sf than subject but there are homes that are larger in the market area but none have sold recently. the sales found had between 11.78 to 32.87 acres and were also in country locations like the subject.																	
the estimated land value for the subject was developed in this manner. there was 32 ac+ with the subject, however, only approximately 6-8 acres were buildable land. the remainder was wetlands and could not be further developed.																	
the appraiser researched land sales in the market area which indicated vacant land was selling from \$3500 to \$5200 per acre. the appraiser found the est value for the buildable 6-8 acres was in range of \$4500/ac or \$36,000 for the 8+- buildable acres and the remaining 24 acres would be in the range of \$2000/ac or \$48,000 which would translate to an est contributory value of \$84,000 for the land.																	
the est contributory value of the land associated with each comparable sale was adjusted from this basis in developing the site adjustments for the grid. sales 1&2 & listing 4 were adjusted for age difference and typical wear & tear associated with age. all sales were also adjusted for the est mkt reaction to the usual market differences between the subject and comps. the adjusted sales prices of the comparables ranged from \$246,300 to \$283,780. most weight is given to the middle range due to the unique earth bermed construction of the subject and the lack of a garage or other amenities.																	
the estimated value of the subject is supported by the available sales in the range of \$260,000 (two hundred sixty thousand & 00 dollars)

Final Reconciliation the appraiser searched the competing mkt area for the most reasonable substitute properties for the subject which had sold in the last year. the appraiser included the 3 most similar sales in the report, despite their obvious differences. any sales not used were significantly different in age, size, lot size, construction or amenities and not most relevant to value for subject. the adjusted sales prices for the comparable sales was from \$246,300 to \$283,780. most weight given to the middle range due to the unique earth bermed construction of the subject and the lack of a garage and other amenities.				
This appraisal is made <input checked="" type="checkbox"/> "as is", <input type="checkbox"/> subject to completion per plans and specifications on the basis of a Hypothetical Condition that the improvements have been completed, <input type="checkbox"/> subject to the following repairs or alterations on the basis of a Hypothetical Condition that the repairs or alterations have been completed, <input type="checkbox"/> subject to the following required inspection based on the Extraordinary Assumption that the condition or deficiency does not require alteration or repair:

## PLEASE NOTE:

THE SUBJECT PROPERTY IS LOCATED WITHIN 20 MILES OF MY OFFICE. THIS ASSIGNMENT REQUIRES GEOGRAPHIC COMPETENCY AS PART OF THE SCOPE OF WORK. I HAVE SPENT SUFFICIENT TIME IN THE SUBJECT MARKET AREA AND UNDERSTAND THE NUANCES OF THE LOCAL MARKET AND THE SUPPLY AND DEMAND FACTORS RELATING TO THE SPECIFIC PROPERTY TYPE AND THE LOCATION INVOLVED. SUCH UNDERSTANDING WILL NOT BE IMPARTED SOLELY FROM A CONSIDERATION OF SPECIFIC DATA SUCH AS DEMOGRAPHICS, COSTS, SALES AND RENTALS. THE NECESSARY UNDERSTANDING OF LOCAL MARKET CONDITIONS PROVIDES THE BRIDGE BETWEEN A SALE AND A COMPARABLE SALE OR A RENTAL AND A COMPARABLE RENTAL.

## CLARIFICATION ON REPORTING INTENDED USE AND USER:

THE INTENDED USER OF THIS APPRAISAL REPORT IS THE LENDER/CLIENT.

UNLESS SPECIFICALLY STATED WITHIN THE REPORT, THERE ARE NO ADDITIONAL USERS. THE INTENDED USE IS TO EVALUATE THE PROPERTY THAT IS THE SUBJECT OF THIS APPRAISAL REPORT FOR A MORTGAGE FINANCE TRANSACTION, SUBJECT TO THE STATED SCOPE OF WORK, PURPOSE OF THE APPRAISAL REPORT , REPORTING REQUIREMENTS OF THE APPRAISAL REPORT FORM AND THE DEFINITION OF VALUE AS DEFINED IN THE REPORT.

## • • URAR : Neighborhood - Description

Subject is located in established country area in knox county in morgan twp south of mt vernon city area. The market area includes the similar country setting areas in the adjoining twps which offer similar amenities to the subject. Most of these areas are more than a mile away but would be competitive areas from a buyers perspective. The subject has easy access to several main state routes connecting the area to employment centers and support amenities. The neighborhood market area is spread out over a large country area in the surrounding townships and there are also some areas with smaller residential properties on small acreage, some large agricultural properties and many areas of undeveloped land which makes up a largest portion of the surrounding land use in the market area.

Home values in the area vary greatly depending upon the age, style, size, lot size & level of updating among other things  
No factors apparent that would be negative to value or marketability concerning the neighborhood.

## COMMENTS:

The analysis of highest & best use of subject was based upon the site being legally permissible, financially feasible, physically possible and maximally productive to the land for the current use. The subject use is a legally permissible use based upon its current zoning. The lot size, shape and land to building ratio allow the present structure and indicate good utilization of the site. Based upon current market conditions the existing structure is the most financially feasible and maximally productive use. If site was vacant, the highest & best use would be to construct a single family residence.

## THE DATA CONSIDERED IN THIS REPORT WAS GATHERED BY APPRAISER FROM THE FOLLOWING SOURCES:

- personal viewing of the interior & exterior of subject property in all readily accessible areas including only walk up attics & uncovered crawl space areas easily accessed & has noted any readily observable conditions of the subject property. That is, conditions that are immediately noticeable and discernible during a typical site visit. This information was used to identify style, size, kind of construction, eff age, physical condition and amenities & noting any physical, functional or external factors. square footage was calculated in accordance with american national standards institute.
- Researching public records via county website information
- Contact with knowledgeable sources such as real estate brokers & sales people, builders, property managers & fellow appraisers from the area .
- Researching local mls services to analyze active listings, sold listings, pending, withdrawn & expired listings, marketing time & any observable market trends which could have an impact or influence on the marketability of the subject.

The appraiser is not a whole house inspector. No attempt has been made to insure that the user of the report should rely on any condition of the subject improvements or site that are not readily observable to the appraiser during the site visit & viewing of the subject property.

With regard to the condition of the property, the condition & quality ratings listed are comparisons with homes in the same market segment. Sometimes it is necessary to make adjustments for condition & quality with regard to some properties either being more updated and remodeled or for differences in upgrades in quality of construction.

Please note that the subject is located in southern knox county in morgan twp but the actual competing market recognized by potential buyers for the subject includes other similar country settings in nearby competing twp areas which offer similar housing to the subject. These areas may be many miles away but would be reasonable substitutes for subject based upon market appeal & overall similarity to the subject from a buyers viewpoint.

Sales grid adjustments are considered self explanatory. They include adjustments for differences between the subject and comparables including location, lot size, age, condition, room count, br & bath count, bsmt differences & garage differences & other amenities. These adjustments are meant to reflect the estimated market reaction to the differences between the subject and the comparables.

# Assumptions, Limiting Conditions & Scope of Work

File No.: RC07MAR17

Property Address:	5952 Rangeline Rd	City:	Mount Vernon	State:	OH	Zip Code:	43050
Client:	Stephen W Schmitt & Karen K Schmitt	Address:					
Appraiser:	G.Richard Coad	Address:	275 S. 21ST STREET, NEWARK, OH 43055				
<b>STATEMENT OF ASSUMPTIONS &amp; LIMITING CONDITIONS</b>							
<p>— The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.</p> <p>— The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless otherwise indicated, a Land Survey was not performed.</p> <p>— If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.</p> <p>— The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.</p> <p>— If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and best use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance value, and should not be used as such.</p> <p>— The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.</p> <p>— The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.</p> <p>— The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.</p> <p>— If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal report and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner.</p> <p>— An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.</p> <p>— The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database.</p> <p>— An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily apparent. The presence of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative factors are encouraged to engage the appropriate type of expert to investigate.</p>							

The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

**APPRAISER'S CERTIFICATION****I certify that, to the best of my knowledge and belief:**

- The statements of fact contained in this report are true and correct.
- The credibility of this report, for the stated use by the stated user(s), of the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- I did not base, either partially or completely, my analysis and/or the opinion of value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property, or of the present owners or occupants of the properties in the vicinity of the subject property.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification.

**Additional Certifications:****DEFINITION OF MARKET VALUE \*:**

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;
2. Both parties are well informed or well advised and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

\* This definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

## APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

- Appraisal Report (A written report prepared under Standards Rule 2-2(a), pursuant to the Scope of Work, as disclosed elsewhere in this report.)
- Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b), pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

## Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

**Reasonable Exposure Time** (USPAP defines Exposure Time as the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.)

My Opinion of Reasonable Exposure Time for the subject property at the market value stated in this report is: 180-270 days

## Comments on Appraisal and Report Identification

Note any USPAP-related issues requiring disclosure and any state mandated requirements:

this appraisal report was prepared in accordance with the requirements of USPAP and FIRREA title XI as amended and any implementing regulations

## GENERAL WARRANTY DEED

Jean Ransom Hamilton, aka Jean Ransom aka Thelma Jean Ransom, married, of Knox County, Ohio, Mary K. Cramer aka Kathryn McCracken aka Kathryn McCracken Cramer, unmarried, of Sarasota County, Florida, and Robert W. Lee, married, of Wichita County, Texas, for valuable consideration paid, grants with General Warranty Covenants, (Per O.R.C. Secs. 5302.05 and 5302.06) to Stephen Schmitt and Karen K. Schmitt, husband and wife, remainder to the survivor of them, whose tax-rolling address is:

The following described real property:

The following real estate, situated in Lot 8, Quarter 2, Township 5, Range 12, Morgan Township, Knox County, Ohio and being described as follows:  
Commencing at a railroad spike found on the Morgan-Pleasant Township Line in the centerline of Range Line Road (Co. Rd. 57) at the northwest corner of Lot 8 and being the northwest corner and beginning point of the tract herein described; thence along the Morgan-Pleasant Township Line South 87 deg. 35' 24" East 844.53 feet to an iron pin set on the west line of the B. & O. Railroad (1906); thence along the west line of said railroad South 29 deg. 15' 29" East 1363.81 feet to an iron pin set; thence North 87 deg. 28' 20" West, passing through iron pin set at 1549.97 feet, a total of 1569.97 feet to the centerline of Range Line Road; thence along the centerline of said road and the Morgan-Miller Township Line North 2 deg. 52' 38" East 1157.55 feet to the point of beginning, containing 32.112 acres as surveyed in November 2001 by Tracy & Mills, Surveyors 10 E Vinc Street, M. Vernon, Ohio, David R. Mills, Surveyor #7157, Ohio. North based on Survey Record O, Page 364. Note: Iron pins set are 5/8" x 30" rebar with plastic cap. Part of Parus 851-00243.

Subject however, to all easements, covenants and restrictions of record.  
Taxes shall be prorated to date of closing.

Parcel Number: 51-00242

Prior Instrument Reference: Volume 500, Page 169.

John Hamilton, spouse of grantor Jean Ransom Hamilton, hereby releases all rights of dower herein.

Sandra Lee, spouse of grantee, Robert W. Lee, hereby releases all rights of dower herein.
